

## 3D Kitchen Designer App Feature Checklist

3DCloud

Compare kitchen designer platforms across three tiers. Use the checklist to evaluate whether a platform meets your needs.

Feature	Description	Tier 1 (Basic)	Tier 2 (Advanced)	Tier 3 (Pro)	Featured Included?
Floorplan Creation & Architectural Features	Create floor plans; edit wall lengths; add doors, windows, and openings	✓	✓	✓	<input type="checkbox"/>
Product Placement & Positioning	Place cabinets and appliances and snap them into place	✓	✓	✓	<input type="checkbox"/>
Design & Measurements	View room dimensions and product-to-product distances	✓	✓	✓	<input type="checkbox"/>
Product Styling	Swap countertop materials, flooring, wall paint, and cabinet hardware	✓	✓	✓	<input type="checkbox"/>
View Design	View the resulting design in 3D perspective	✓	✓	✓	<input type="checkbox"/>
Capture Screenshots	Capture simple screenshots of a design (unrendered)	✓	✓	✓	<input type="checkbox"/>
Staging Content (Standard)	Select from a pre-defined library of decorative objects	✓	✓	✓	<input type="checkbox"/>
Bill of Materials (Standard)	View a list of all products in the design	✓	✓	✓	<input type="checkbox"/>
Cloud-Based Platform	Cloud-based access from any device, no desktop install needed		✓	✓	<input type="checkbox"/>

Lead Generation Apps	Interactive upper-funnel tools (Style Quiz, Estimator, Visualizer)		✓	n/a	<input type="checkbox"/>
3D Perspective View (Enhanced)	Single-screen live 3D workspace with zoom, pan, and rotate		✓	✓	<input type="checkbox"/>
Inspiration Rooms	Pre-built rooms that load a full, editable design from a selected image		✓	✓	<input type="checkbox"/>
Enhanced Room Drawing	Continuous drawing mode, angle snapping, auto-enclose, global wall height controls		✓	✓	<input type="checkbox"/>
Floor Plan Trace	Upload and trace an existing floor plan image		✓	✓	<input type="checkbox"/>
Room Scan Feature (iOS only)	Scan a room to auto-generate and upload a floor plan		✓	✓	<input type="checkbox"/>
Keyboard Shortcuts	Design-specific hotkeys for views, placement, and navigation		✓	✓	<input type="checkbox"/>
Automated Customer Estimate Export	Customer-ready estimate in a few clicks, pulled from the design		✓	✓	<input type="checkbox"/>
Staging Content (Custom)	Retailer-curated, on-brand staging content		✓	✓	<input type="checkbox"/>
Design from Photo	Select or place items from a photo to accelerate design		✓	✓	<input type="checkbox"/>
Rapid Placement	Auto-place the next cabinet adjacent to the previous one		✓	✓	<input type="checkbox"/>

Product Snapping Usability	Enhanced snapping for rapid unit placement		✓	✓	<input type="checkbox"/>
Multi-Select to Edit at Scale	Multi-select products or legend items in-scene for bulk editing		✓	✓	<input type="checkbox"/>
Global Room Styling Features	Swap all cabinet colors or set different upper/lower colors		✓	✓	<input type="checkbox"/>
Standard Bill of Materials	Product list with SKUs and quantities, branded to your company		✓	✓	<input type="checkbox"/>
CRM/Designer Portal Integration	Customers save/share projects; designers view and edit		✓	✓	<input type="checkbox"/>
Client-Branded UX	Integrate the planner with your website and brand		✓	✓	<input type="checkbox"/>
High Definition Renders	2K renders in seconds; 4K and 8K in minutes			✓	<input type="checkbox"/>
Catalog Swapping	One-click catalog swap to show the same layout in different brands			✓	<input type="checkbox"/>
Read-Only Sharing	Share designs in view-only mode for approval without edit risk			✓	<input type="checkbox"/>
Save Product Favorites	Save and share product configurations among designers			✓	<input type="checkbox"/>
Automated Design Presentation Export	Complete project pack (renders, plans, BOM) in a few clicks			✓	<input type="checkbox"/>

Analytics Dashboards (Looker)	Track sessions, users, projects, conversion rates via dashboards			✓	<input type="checkbox"/>
Custom Ceilings	Vaulted, angled, cathedral, and custom ceiling types			✓	<input type="checkbox"/>
2D Views	Orthographic plan and elevation drawings for installers/contractors			✓	<input type="checkbox"/>
Automatic & Manual Measurements	Control measurement visibility; capture custom measurements in 2D			✓	<input type="checkbox"/>
Customizable Legend	Choose detail level, nomenclature, SKU, product name in ortho views			✓	<input type="checkbox"/>
Custom Annotations	Add notes for customers or installers directly on the design			✓	<input type="checkbox"/>
Custom Countertop Editing	Edit countertop dimensions, shape, curves, cutouts, edge profiles			✓	<input type="checkbox"/>
Product Grouping and Saving	Group products (e.g., island assembly), save, reuse, share			✓	<input type="checkbox"/>
Advanced Product Styling	Toe-kick mods, cut-downs, catalog-specific configuration options			✓	<input type="checkbox"/>
Cabinet Handle Quantity / Orientation	Fine-tune hardware placement along cabinet frames			✓	<input type="checkbox"/>
Custom Image Upload	Upload photos for custom wall/floor textures, murals, or accents			✓	<input type="checkbox"/>

Tiling Patterns & Grout	Tile layouts, patterns, grout color, and width on any surface			✓	<input type="checkbox"/>
Wet Zones in Bathrooms	Place wet zones to meet bathroom safety requirements			✓	<input type="checkbox"/>
Navigation - Quick Select Views	Shortcuts to jump between elevations, 2D, 3D, and product list			✓	<input type="checkbox"/>
Quick Align	Snap objects to same plane (top, bottom, center) in 2D views			✓	<input type="checkbox"/>
Lasso Tool	Freeform/legend-based multi-select in 2D views for bulk edits			✓	<input type="checkbox"/>
Render Style Options	Switch between wireframe, white fill, color fill, photorealistic			✓	<input type="checkbox"/>
High-Def Room Render Preview	Preview renders before processing			✓	<input type="checkbox"/>
Sun Position & Time-of-Day Lighting	Adjust lighting direction and hue to optimize HD renders			✓	<input type="checkbox"/>
Post-Process Image Editing	Adjust brightness, contrast, and other values after rendering			✓	<input type="checkbox"/>
360 Panoramas	View finished design 360 view in a browser or VR headset			✓	<input type="checkbox"/>
Edit Bill of Materials	Edit quantities and add off-scene products to the BOM			✓	<input type="checkbox"/>

Custom BOM Features	Develop custom BOM features for specific workflows			✓	<input type="checkbox"/>
